'Koos' is helpful to keep Government's institutional memory alive

Pune (Voice news service):- "A woman's uterus and the various forms of exploitation associated with it are a fact. Even though the government's policies are good, their implementation takes many years.

It also adds to the wide gap between the various departments of the government and the society. Koos's novel is useful in keeping the institutional memory of the government alive as everyone changes from commissioners

If you take the initiative to create a positive work in this regard, we will help you to the best of your ability," said Dr. Neelam Gorhe, Deputy Chairman of Maharashtra

She was giving a presidential remark in the seminar on 'Koos: Narrative exploration of women's survival and health, organized on behalf of the Sarjansheel Katta by Uchit Media. Senior writer Asaram Lomte, senior writer-critic Dr. Randhir Shinde, Renowned Gynecologist Dr. Revathi Rane, Director of Vanchit Vikas Sansthan Meena Kurlekar, Director of Kesh Ayurveda Dr. Harish Patankar, Rohan Prakashan's

Dr. Neelam Gorhe said, Koos

Dr. Pradeep Champanerkar,

author of the novel Dnyane-

shwar Jadhwar, Founder of

Uchit Media Jivraj Chole and

others were present on the

is a vivid story of the sad experiences of a group at the bottom of the society. The author's powerful depiction of his experiences is the hallmark of this novel. The novel ends with Surekha, the main character, passing away. If Surekha does not go anywhere, there is no doubt that she will come in the women's

But it is a big challenge to find out where Surekha is in the society."

Asaram Lomate mentioned that Koos is a novel that evokes a hopeful present that takes it to the level of human consciousness. This novel not only raises questions but also shows the way to solve those questions. Dyaneshwar Jad-

hawar's novel Koos will also bring a positive present, he added.

Dr. Randhir Shinde This novel is related to the trinity of Phad, Pishvi and Kajli. In this novel, a thorough exploration of polygamy has been taken. It presents the harsh and painful reality of women living on the periphery.

Dr. Revati Rane gave detailed information about various diseases related to the uterus. On the one hand, experiments with uterus transplantation are being successful, along with this, we should also give importance to saving the uterus. Just as we have given the slogan 'Save the girl child', now it is time to give the slogan 'Save the uterus', she urged.

Meena Kurlekar also spoke about problems related to issues. She appealed to work on the same and gave respect to every woman as human. Dnyaneshwar Jadhwar elaborated the journey about the making of the novel. Pradip Champanerkar gave opening remarks. Jivraj Chole welcomed and compared the function & also gave a vote of thanks.

Rashtriya Sewa Sangam of Rashtriya Sewa Bharti commences fervently in Jaipur

(Voice news service):- One of the leading social groups with presence across the country Rashtriya Sewa Bharti's mega conclave Rashtriya Sewa Sangam 2023 commenced on 6 April at Keshav Vidyapeeth, Jamdoli, Jaipur (Rajasthan). The Rashtriya Sewa Bharti is a not-for-profit organization that follows the ideological pursuit of the Rashtriya Swayamsevak Sangh (RSS) to embrace togetherness and works for the betterment of marginalized, oppressed, and neglected people who are deprived of health, education, and livelihood facilities.

The three-day Mahasangam of RSB is being organized in Jaipur during 7, 8 and 9 April 2023. The sangam witnesses a massive participation of 3000 volunteers from more

than 800 organizations from across the country. The inaugural session of the grand event was graced by the presence of General Secretary of Rashtriya Sewa Bharti Renu Pathak and Founder of Vishwa Jagriti Mision Param Pujya Acharya Sudhanshu Ji

"The main and implicit objective of this great convention is to build a harmonious, capable, self-reliant and self-reliant society and a prosperous India by establishing synergy between the collective efforts of the voluntary organizations associated with Rashtriya Seva Bharti.

This is our third edition of the Rashtriya Sewa Sangam which was earlier organized in 2015 and 2010. The congregation is in line with appreciating all volunteers who

'Solve for Tomorrow' Pune (Voice news serin ensuring financial discipline within the business. Last year,

vice):- Samsung India has announced it has partnered with Ministry of Electronics & Information Technology's (MeitY's) Startup Hub and Foundation for Innovation & Technology Transfer (FITT), IIT Delhi for the second season of its national education and innovation competition Samsung Solve for Tomorrow that was launched today. With Solve for Tomorrow, Samsung aims to usher in a culture of innovative thinking and problem-solving amongst the country's youth.

The second season of Samsung Solve for Tomorrow was inaugurated by Mr Alkesh Kumar Sharma, Secretary, Ministry of Electronics & Information Technology (MeitY) and Mr. Jong-Bum Park, President & CEO, Samsung Southwest Asia in the presence of other dignitaries.

The flagship CSR program of India's largest electronics brand recognizes the power of innovative solutions and their ability to transform lives, making a strong social impact, and strengthens Samsung's vision of #Powering-DigitalIndia

The first season of Samsung Solve for Tomorrow in 2022 received over 18,000 registrations from youth across the country. Two of the top three winning teams of season one have incorporated their companies while one is currently in the process of doing it.

This year, anyone in India aged 16-22 years can participate in the program by sending their innovative tech-enabled ideas that will transform the lives of people. The ideas should be under the themes - Education & Learning, Environment & Sustainability, Health & Wellness and Diversity & Inclusion. Participants can apply for Samsung Solve for Tomorrow on www. samsung.com/in/solvefortomorrow starting April 04, 2023 till 5 pm on May 31, 2023. The top three teams will win INR

1.5 crore to turn their ideas into action while others participants who reach top 30 and top 10 will be rewarded at various stages of The top 30 teams (individuals

or teams of up to 3 members) will be trained and mentored by Samsung's partners - Foundation for Innovation and Technology Transfer (FITT) at the Indian Institute of Technology, Delhi (IIT Delhi) and MeitY Startup Hub at a residential bootcamp at IIT Delhi, helping participants enhance their ideas. They will also get INR 20,000 each to create initial prototypes and then pitch their ideas to a jury of young Samsung employees and experts from FITT, IIT Delhi and MeitY Startup Hub. This jury will select the top 10 teams for the finale.

These teams will also get the opportunity to visit Samsung India offices, its R&D centres, design centre, and Samsung Opera House in Bengaluru where they will interact with young Samsung employees and researchers.

Cummins announces Investments of more than \$1 billion Across U.S. **Manufacturing Network**

Pune (Voice news service):- On Monday, April 3, President Biden will visit Cummins Inc. (NYSE:

CMI) in Fridley, Minnesota (USA) as part of his Administration's Investing in America tour. During the visit, President Biden will discuss how his Investing in America agenda is supporting manufacturing, innovation and a clean energy economy, as well as creating good-paying jobs in communities like Fridley and across the country.

"I am delighted that we will have the chance to show President Biden the innovative work we are doing at our Fridley plant and our incredible Cummins employees who are doing it," said Jennifer Rumsey, Cummins President and CEO. "In just a few weeks, we will begin manufacturing one of the key pieces of technology for green hydrogen production that will help decarbonize our economy and drive the clean energy transition - the electrolyzer. Support from the Biden Administration and Congress with legislation like the Bipartisan Infrastructure Law and Inflation Reduction Act are driving the clean energy economy forward in the United States and critical to our decarbonizaCoinciding with the visit, Cummins has announced that in addition to recent investments in Fridley, the company is investing more than \$1 billion across its U.S. engine manufacturing network in Indiana, North Carolina and New York. The investment will provide upgrades to those facilities to support the industry's first fuel agnostic engine platforms that will run on low carbon fuels, including natural gas, diesel and eventually hydrogen, helping decarbonize the nation's truck fleets today.

"The historic investments included in those pieces of legislation played a key role in our decision to manufacture products here in the U.S., creating more clean-tech jobs and positively impacting our communities," Rumsey continued. "The electrolyzer production in Minnesota and investment in our Indiana, North Carolina and New York facilities are reflective of our dual path approach of advancing both engine-based and zero-emission solutions - an approach that is best for all of our stakeholders and our impact on the planet. We can't do this alone and are grateful for the continued partnership and collaboration with congressional leaders and the Biden Administration.

Publishes Sustainability Report for Fiscal Year 2022 Pune (Voice news ser-

Vitesco Technologies

vice):- Vitesco Technologies, a leading international supplier of advanced drive technologies and solutions for e-mobility, today presented its latest sustainability report - the first to use climate scenario analyses, as recommended by the Task Force on Climate-related Financial Disclosures (TCFD). The company thus has an overview of all the key climate-related opportunities and risks within its own business activities. The report is now avail-

able online. "On more than 100 pages, we present our goals and progress when it comes to sustainability," explains Ingo Holstein, CHRO at Vitesco Technologies: "In direct comparison with our first sustainability report for fiscal 2021, we can see improvements in all key

With its systematic focus on climate-friendly drive technologies, Clean Mobility is an integral part of the corporate strategy. The goal is to generate sales of around 10 to 12 billion euros with electric and electrified solutions by 2030. With total sales in 2022 of €1.1 billion and a high number of incoming orders in the field of electrification, the company has every reason to be confident that it will also achieve its next medium-term

target of more than €5 billion in

more success in the future.

Another focus area of Vitesco Technologies' sustainability agenda is Climate Protection: Vitesco Technologies has set itself the ambitious goal of making its entire value chain carbon-neutral by 2040 at the latest. This also includes all business activities beyond the company's own processes - such as the procurement of production materials, raw material extraction or use of the products, for example. In its own operations, the company is already aiming to be entirely carbon-neutral by 2030. At the end of 2022, 91.9 percent of this target had already been met (2021: 90.6 percent).

In terms of Resource Efficiency and the Circularity, Vitesco Technologies is aiming for a waste recovery quota of 95 percent by 2030. The company already came very close to achieving this target in 2022, with 94.6 percent (2021: 92.6 percent).

A key objective in the Responsible Sourcing and Partnerships focus area should even be achieved this year, once all strategic suppliers without exception have signed the Code of Conduct for Business Partners, thus confirming Vitesco Technologies' key human rights and ethical principles.

WORLD'S GREATEST CHEF MASSIMO BOTTURA BRINGS HIS CELEBRATED FOOD TO DELHI FOR THE FIRST TIME

(Voice news Pune service):- A once-ina-lifetime opportunity for Indian gourmets, Culinary Culture and The Leela Palace New Delhi present Osteria Francescana, rated as the Two-Time World No.1 restaurant by the World's 50 Best Restaurants and helmed by celebrity chef and philanthropist Massimo Bottura. Bottura and his team will travel to New Delhi for the first time to re-create the magic of their Three Michelin starred restaurant from Modena, Italy at the Leela Palace New Delhi on 21st & 22nd April 2023.

Massimo Bottura, the Italian maestro chef, widely known for his innovative approach to Italian cuisine was included as part of Time Magazine's World's 100 most influential people list and is a Goodwill Ambassador for the United Nations Environment Programme (UNEP). A key ingredient in Massimo's

food is the underlying social and environmental consciousness imbued in every dish he serves. As founder of Non-Profit organization called 'Food for Soul', Bottura leverages his global platform to advocate for reduction of food waste and protecting the environment and biodiversity through sustainable cooking practices and ingredient sourcing. His commitment to sustainability echoes the ecoaware values championed by

Osteria Francescana, the 12 table restaurant he started in Modena in 1995, is widely recognised as one of the most difficult restaurant reservations in the world with waiting list than goes into the thousands. The restaurant was awarded the title of 'The World's Best Restaurant' on two occasions in 2016 and 2018 by the World's 50 Best Restaurants.

The special menu created for New Delhi will feature vegetarian and non-vegetarian renditions of Bottura's signature and most iconic dishes such as 'Oops I Dropped the Lemon Tart, 'The Crunchy Part of the Lasagne' and 'Psychedelic Cod Not Flame Grilled' amongst others. In the lead up to the dinners, Bottura will also host an invite-only interactive session, where he will be in conversation with Vir Sanghvi, India's

leading food authority. Commenting on this collaboration, Mr. Anupam Dasgupta, General Manager The Leela Palace New Delhi said, "Food has long served as a bridge between many nations, cultures, and people. At The Leela, we are committed to elevating our guests' experiences by integrating thoughtful experiences that resonate with our guests' pas-

We are delighted to collaborate with Culinary Culture to bring Chef Massimo to the city and it is our privilege and honour to host him at The Leela Palace New Delhi. We look forward to the magical epicurean delight that Chef Massimo will curate and are excited to watch it unfold."

Raaj Sanghvi, CEO, Culinary Culture added, "It's an honour to have Massimo and his team back with us in India. His dinners in Mumbai sold-out within minutes and we are anticipating an even greater response in Delhi. Bottura is much more than a chef, he is a global inspiration and uses his platform and stature to bring about positive changes in the world. At Culinary Culture our mission is to bring the best of the world to India and we are grateful to our partners The Leela Hotels and Diageo who

have made this possible".

Chef Massimo Bottura shared

his excitement and said, "Namaste India, I can't wait to be back in your beautiful country very very soon! I'm bringing my team from Osteria Francescana in Modena to cook two amazing meals in New Delhi in partnership with Culinary Culture and The Leela Palaces, Hotels and

We are preparing a beautiful menu and I can't wait to be back in India and give everyone a warm hug!"

During his last visit to India, Bottura wowed lucky diners in Mumbai with his spectacular rendition of Osteria Francescana and now Delhi can experience the genius of the world's greatest chef.

With very limited seats available, guests are advised to reserve their experience for this extraordinary event priced at INR 55,555 plus taxes per person, to be held on 21st and 22nd April 2023

IPL 2023: HINDWARE LIMITED PARTNERS WITH PUNJAB KINGS AND ROYAL CHALLENGERS BANGALORE FOR IPL 2023

(Voice news service):- Indian Premier League (IPL), one of the biggest sporting extravaganzas and a celebrated event for cricket fans across the world kickstarted its 16th edition from March 31 st, 2023. Hindware Limited, a leader in complete bathroom solutions, is thrilled to announce its partnership with two of the biggest teams in the Indian Premier League (IPL) - Punjab Kings and Royal Challengers Bangalore for the upcoming 2023 season. This strategic partnership will enable Hindware to strengthen its brand visibility and engagement with cricket fans across the country.

Speaking about the partnership Mr. Sudhanshu Pokhrival, Chief Executive Officer, Bath & Tiles, Hindware Limited said "Cricket is a sport that unites the entire country with thrilling sporting action that is a feast for Indians around the world. We are delighted to be associated

with Punjab Kings and Royal Challengers Bangalore. Through this synergic partnership, we look forward to engaging with our audience. We are confident that this partnership will help us strengthen our brand presence and drive growth in the highly competitive bathroom solutions market."

Charu Malhotra, Vice-President, Marketing, Hindware Limited further added. "We are extremely thrilled to partner with Punjab Kings and Royal Challengers Bangalore for IPL 2023. This partnership presents a unique opportunity for Hindware to connect with millions of cricket fans across the country.

We are proud to have partnered with Punjab Kings and RCB and wish both the teams all the very best for the season ahead." Punjab Kings and Royal Challengers Bangalore are two of the most iconic cricket team in the Indian Premier League,

with a massive fan following in India. Aligned as the principal sponsor with Punjab Kings the players and official members will be sporting the Hindware logo on the cap and helmet. And with Royal Challengers Bangalore, the company has partnered as the associate sponsors with Hindware logo represented on the non-leading arm of the jersey. This partnership will provide Hindware with a unique opportunity to showcase its brand to millions of cricket fans through various promotional and marketing activities.

Mr Satish Menon, CEO, KPH Dream Cricket Private Limited said, "It's always a pleasure when a partner reaffirms their faith by extending the relationship. Especially a partner like Hindware Limited, as a trusted brand across the country they echo our commitment to our fans, and we are confident of expanding this successful partnerSpeaking on the occasion, Rajesh Menon, Head & Samp; Vice President of Royal Challengers Bangalore, said, "Hindware is a legacy Indian brand, and we are very happy with this association and the potential that this partnership holds and the value RCB brings to the brand as an experiential marketing delivery platform."

The partnership Hindware Limited will also have the opportunity to create exciting engagement activities for fans along with Virat Kohli, Mohd Siraj, Glenn Maxwell from Royal Challengers Bangalore and Shikhar Dhawan, Arshdeep Singh and Rahul Chahar from Punjab Kings. There is more in store from Hidnware in terms of contests, giveaways, and social media campaigns along with the players.

Through the partnership Hindware Limited will also get an opportunity to create exciting engagement activities for fans along with stars Virat Kohli, Mohd Siraj, Glenn Maxwell from Royal Challengers Bangalore and Shikhar Dhawan, Arshdeep Singh and Rahul Chahar from Punjab Kings. There is more in store from Hindware in terms of contests, giveaways, and social media campaigns with the players.

Cadence lift title at 1st edition of Punit Balan-Kedar Jadhav Mega Club Championship Cricket Tournament 2022 - 23

Introducing Chappers - Pune's Revolutionary Footwear Brand

(Voice news Chappers is a path-breaking brand in the Indian men's footwear industry, founded by Harshwardhan Patwardhan. Initially launched with the vision of taking the iconic Kolhapuri chappals to the world, Chappers has rapidly evolved as a brand that is solving various shortcomings related to men's footwear sector in India.

Traditionally, there is a severe lack of footwear colours for men, and only brown, black and grey dominate the spectrum. There are almost no options for men who wish to go beyond these shades in the footwear industry. Getting bespoke shoes made as per personal colour and design preferences proves to be quite expensive and usually beyond the reach of general public. Chappers is aiming to change this situation by becoming the brand that will provide good-quality custom footwear to men, at the right price.

Being passionate about technology and indigenous products from India, Harshwardhan decided to merge both to cater to the audi-

Through its unique combination offerings of ready-to-wear shoes as well as custom footwear, Chappers offers an unmatched experience to the customers.

Harshwardhan Patwardhan is the dynamic founder of the footwear label, Chappers. As a path-breaking brand in the Indian footwear industry, Chappers is making waves through its innovative designs, unmatched customisation options, and technology-driven in-store retail experience.

Harshwardhan is a quintessential Indian and true to his Maharashtrian roots, he had an obsession for Kolhapuri Chappals. When he went to study Business Management at Nottingham, he carried a pair of the iconic sandals with him. However, when his footwear was highly praised by people in UK, he began contemplating giving a modern touch to add global appeal to the legendary Kolhapuris, that are typically available in only black, grey or brown co-

Upon returning to India after completing his MSc in Business Management, he decided to create his own footprint as an entrepreneur instead of joining the transportation business of his father. The 'Make in India' initiative by the PM Modi proved to be the ultimate inspiration, convincing the young businessman to embark on the journey.

Rotary Club of Pune Laxmi Road and Revive Heart Foundation launches CPR awareness program

Pune (Voice news **service):-** In an effort to create awareness about Cardiopulmonary Resuscitation (CPR), Rotary Club of Pune Laxmi Road and Revive Heart Foundation have organized a three week campaign called 'Project Dhadkan' .This program was launched on Friday at the hands of Hon. MLA Mr Siddharth Shirole. Renowned Sports columnist Mr Sunandan Lele interviewed famous cardiologists Dr.Jagdish Hiremath and Dr. Sunil Sathe following a

demonstration on CPR. Aniruddha Deshpande, MD Amanora, Dr.Rajeev Yerawdekar, Dean, Faculty of Health & Biomedical Sciences, · Symbiosis International University, Dr.Vidya Yerawdekar, Pro Chancellor Symbiosis University, Ravi Kumar Chitnis VC MIT

WPU, Dr.Kinjal Goyal, Dr.Mukund Tupe along with Hemant Shirguppi President Rotary Club of Pune Laxmi Road, Bhushan Kanani, secretary Rotary Club of Pune Laxmi Road were present on the occasion. MLA Siddharth Shirole said

that in critical situations being empowered through CPR skills is a key . This must also be done through colleges . This is an act of serving the nation, society and humanity. Project Dhadkan is spreading CPR awareness in the society . The way the heart is designed, the way it functions is highly efficient said Dr. Hiremath Every collapse is not a cardiac arrest but many a times may be just a drop of blood pressure. Cardiac arrest means heart stops beating, brain and body does

not get blood. In such a case

. It is not always possible for an ambulance to reach and treatment to start in such short time . Therefore CPR is like an excellent/ effect first aid. CPR is starting the heart with massage and external shock by AED. Breathing will start on its own. The cause of cardiac arrest is dealt in the hospital . Common steps include recognise cardiac arrest, CPR, AED if needed and shift to hospital . More than 70 percent of cardiac arrest happen in non hospital settings .CPR is like a life skill Good number of victims of SCA can survive because of CPR. Bystander CPR vital intervention before arrival of emergency services can double the victims chance of

this must start in 3 minutes

Dr.Sunil Sathe the first reaction is being emotional . So only awareness is not enough but education for CPR will ensure there is minimal panic reaction. CPR training will save crucial time thereby increasing the chances of survival . While giving CPR people should not be afraid . They are not subject to any questioning .Dr.Sathe insisted that CPR training should be included in the curriculum of higher secondary and colleges.

This is the second edition of 'Project Dhadkan', the first one was conducted last year in September starting from World Heart Day and reached out to 5000 people. This year the aim is to reach out to more number of people to create awareness on

During the three weeks pro-

gram starting from 8th to 29th April, Dr Hiremath and his fellow team will conduct CPR awareness sessions in several Institutes, companies and various associations,. The initiative also includes donating and installing 5 automated external defibrillator (AED) systems in public places. An automated external defibrillator (AED) is a portable electronic device, the AED machine shock in CPR can improve survival remarkably. The main aim is to make Pune first and the most Cardiac Safe City in India. This awareness program will conclude on 30th April . Dr.Paresh Gandhi was the compere for the event .Rtn Parag Vohra delivered the

Through our innovative nutritional reports, we are empowering parents to make informed decisions about their child's diet, ensuring that they receive the best start in life and reach their full potential. Lexicon Kids Preschools, Day Care, and Child Development Centre believes that every child deserves to thrive, and we are proud to be leading the way in promoting healthy habits and an active,

Pune (Voice news service):- The team of urologists at ACE Hospital, Pune successfully performed a 3D laparo-

scopic surgery to remove the largest tumor in the adrenal gland. The adrenal gland is located on the upper part of both kidneys, measuring about 4 x 3 cm and of 4 to 8 grams. This gland plays a very important role in the functioning of the body.Adrenaline and steroids are very vital hormones or secretions produced in this gland. Adrenal cyst is among many diseases which can occur in this adrenal gland. A cyst means fluid filled bubble like tumor, is one of the rare disease among the diseases of adrenal gland.Generally tumors of more than 15 cm in size needs open surgery for its removal.

A 58-year-old, foreign national woman came to Ace Hospital with complaints of constant back pain and vomiting since vears. On evaluation, her CT scan showed around 15cm cystic tumorin left Adrenal gland. The local doctor advised her to undergo surgery as soon as possiblebut due to fear of open surgery, she avoided further treatment for years. As the complaints did not subside, she finally decided to seek medical treatment in India. Here, she was admitted to ACE Hospital in Pune. After repeat CT scan, the same tumor appeared to have grown up to 23 cm in size and tumor occupied more than half of the patient's abdomen.As this tumor was on the left side, it was tightly adherent to the left kidney, spleen, pancreas and the large intestine. In such cases, it is safer to perform the conventional open surgery by cutting the whole abdomen.But the patient herself was not willing to undergo the open method surgery under any circumstances, so she decided to come to India without seeking treatment in her country. The urology specialist of ACE Hospital explained to the patient that the operation can be attempted with the help of 3D laparoscopy, but if necessary, the open surgery will have to be done.

Team of doctors at Ace Hospital Pune remove

the largest tumor in the adrenal gland

After the patient was prepared for it, the surgery was successfully performed with a modern telescopic technique called 3D laparoscopy.It took four and a half hours for surgery.With the great skill, all the surrounding organs were separated and only the tumor was removed without any damage to the adrenal gland and surrounding structures.Most of the time, in such a surgery, the adrenal gland has to be removed as well.3 liters of cvst fluid was removed from this tumor.The patient recovered completely within four days after this operation.

The team of skilled urologist Prof.Dr.Suresh B.Patankar, senior urologist Dr.Gururaj R. Padasalagi, urologists Dr.Mayur Narkhede and Dr.Kashinath V.Thakare succesfully performed this surgery. Other team members were Dr. Sonali Vaste anesthetic and Assistant nursing staff were Sunita Bangar, Usha Bawadhane, Savita Kokare, Abhishek Shinde, Manda Bahir and Vaibhav Korde.

In this context, all important scientific medical journals were searched. It showed that in India, till now upto 21 cm size tumor and in entire world around 22cm size tumor were removed by laparoscopy method. The present tumor removed in ACE hospital by 3D laparoscopy is of

NSDC and Fenice Energy to train a renewable energy workforce a period of time advance

Pune (Voice news service):- National Skill Development Corporation (NSDC), and Fenice Energy, a leading provider of renewable energy solutions, have commenced a partnership to provide upskilling and micro-entrepreneurship opportunities in the green energy sector.

The partnership will aid and accelerate in the transition to cleaner sources of energy in our country. A Memorandum of Understanding (MoU) was signed to ensure that more than 1-lakh learners are trained in various skill sets required in the renewable energy sector.

The program is specifically aimed at two key development objectives for India creating robust opportunities to develop jobs/micro-entrepreneurs the country; and tackling the climate crisis. Through this partnership both entities will identify candidates for upskilling and coach them through a mix of an e-learning platform and practical coursework; and ensure placement of all the graduating learners. The program is directed to train the learners in Sales & Marketing modules, Installation and Commissioning, Operations & Maintenance and Software

With advancements in renewable energy, the partnership is designed to start and pilot with solar and over

to storage and hydrogen as well. Engagements with various training partners and skilling agencies are underway to mobilize candidates, deliver high quality training, and ensure absorption into a 'green workforce'

Ved Mani Tiwari, CEO, NSDC said, "Renewable energy is the future of the world, and with a vision to create 1 lakh entrepreneurs and jobs, we are excited to collaborate with Fenice.

This partnership is a significant step towards upskilling and empowering India's workforce to meet the demands of the growing global renewable energy industry. My vision is to witness our country's youth leading the world's transition to green energy."

Speaking about the partnership, Pashupathy Gopalan, the CEO of Fenice Energy, said "Fenice Energy is proud to work collaboratively with the NSDC to train and create entrepreneurship opportunities in the renewable industry. Our country is at a precipice of an energy transition, and the solemn commitment made by our country to get to non-fossil fuel energy capacity of '500 GW by 2030', requires a large number of trained workers. Fenice will leverage its 20+ years of experience in delivering worldclass renewable projects to design and deliver the curriculum."

healthy eating habits and The report includes vital defoster positive relationships happy lifestyle.

mitted to building a sustainable future through the adoption of electric vehicles in India.

We are quite elated to have again collaborated with a credible and environment conscious brand like National Geographic who with its innovative and inspiring storytelling has helped us spread and share our vision of revolutionizing the EV segment in India," said Tata Motors Spokesperson.

'Go.ev', will premiere on April 09, 2023, at 7.00 pm on National Geographic Channel

Priority Pass Expands Airport Takeout Service to 14M+ Members

Pune (Voice news and a vast array of global service):- Priority Pass, the original and market-leading airport experiences programme, owned and operated by Collinson, has expanded its paid-for Airport want to easily access fast food ellers save time with seamless chefs for finer dining outlets, food ordering. Today, more than 14 million Priority Pass members have access to the airport takeaway service meaning more members can avoid the queues at busy air-

Additionally, the number of food and beverage (F&B) outlets has grown by 65%, offering convenient takeaway ordering from more than 485 outlets at 44 airports across the UK and the US, including Dallas Fort Worth International, Los Angeles International, London Heathrow and

Manchester. Bringing a wide variety of F&B options to travellers, Airport Takeout caters for a wide selection of in-airport dining choices and dietary requirements including Vegan, Gluten Free, Vegetarian cuisines. Future expansion plans will also see the service launched in countries including Australia, Denmark and the UAE. Whether travellers Airport Takeout helps them find exactly what they want to suit their preferences whether it be price, dietary requirements and even wait

Airport Takeout is powered by Servy, the enterprise self-service platform for hospitality formerly known as Grab. The convenient, nowait solution lets members select and pay for food and beverage orders from participating outlets through the Priority Pass app*, which members must be logged into. A paid-for takeaway service, Airport Takeout is not redeemable as an entitlement. "Travel is not just about enjoying the destination. The experience of the journey is just as important and, for many travellers, dining at

the airport is something they look forward to. We also recognise that for many, having the ability to browse for specialist dietary requirements is a welcome addition to improving their overall travel Takeout service, helping trav- or dishes devised by celebrity experience, helping travellers pre-plan their dining and removing a potential layer of stress from their journey. The expanded Airport Takeout service forms part of our goal to deliver a broad range of digitally-enabled travel experiences that enhance our members journeys at every touchpoint. By increasing both the number of members with access and outlets available to order from, we're bringing a great variety of dining options to travellers, letting them order exactly what caters to their unique preferences in just a couple of clicks," said Christopher Evans, Joint CEO of Collinson. The service is the latest from Collinson in its mission to help the world travel with ease and confidence. Airport

lers for digital solutions that speed up the airport journey and make the travel experience more seamless and convenient.

"Traveller needs and behaviours are continuously evolving, which presents a tremendous opportunity for us to transform the airport dining experience together with our strategic partner, Collinson," said Jeff Livney, Founder and CXO of Servy. "We're excited about the future and continuing to work together to develop digital experiences and contactless solutions that will not only be more convenient for travellers but will also maximise value for our airport and hospitality partners."

Today's announcement further underscores Collinson's expansion of the travel experiences offered alongside its portfolio of airport lounges within the Priority Pass programme. At present, it includes lounge, sleep, retail, spa, fitness, F&B and travel services, such as a car hire and airport transfers.

room Ahmedabad). Odysse VADER is powered by the newly introduced Odysse EV App. This app comes with connectivity features such as Bike Locator, Geo fence, Immotrace, Low battery Alert among many other utilities that are essential for ease in navigation for two-wheeler users. The electric motorbike comes with several exciting new features, new engine technologies and is available in exciting five new colours such as Midnight Blue, Fiery Red, Glossy Black, Venom Green and Misty Grey.

Speaking on the occasion, Mr. Nemin Vora, CEO, Odysse Electric Vehicles Pvt. Ltd., "I am thrilled to introduce VADER, a technologically advanced and innovative motorbike. Our goal is to provide sustainable and affordable mobility that can be accessible to everyone. The first step towards achieving this goal is creating an affordable product that everybody can operate.

We believe that VADER will

help make transportation more efficient for all riders by introducing cutting-edge technology into the market at an unbeatable price. Odysse's new VADER offers seamless connectivity and powerful running capabilities giving riders complete control over their journey making it convenient yet fulfilling mode of transport."

Takeout especially caters to a

growing demand from travel-

"We have an exciting new product line-up planned for 2023, along with the FAME-II approved High-Speed motorbike VADER. We plan to launch an electric scooter in the third quarter of 2023.

We also intend to increase our dealership network to over 150 by the end of the year, and we anticipate that this initiative will increase our sales by at least 300%", Mr. Vora added.

The electric bike is offering a 3

years warranty on battery, and 3 years warranty on Powertrain. Odysse VADER will be available for booking Online and across the company's dealership network of 68 outlets at a booking amount of INR 999. The deliveries of Odysse VADER will commence from July this year.

subsidiary of the Italian auto India. He also had a successgiant Piaggio Group and maker of the iconic Vespa and sporty Aprilia range of scooters has announced the

Mr. Ajay Raghuvanshi would be reporting to Mr Diego Graffi, Chairman and Managing Director of Piaggio Vehicle Private Limited

"Advantec Wheels will redefine premium Alloy Wheels' Passenger Car Aftermarket with #1 Quality, Durability, Reliability and Safety Flow-Forged Wheels

Ajay Raghuvanshi appointed as Executive Vice President of 2W

Domestic Business (ICE) at Piaggio Vehicles Private Limited

(Voice news **service):-** Close on the heels of announcing its impressive foray into manufacturing of aesthetically designed, high performance and superior quality of Premium Flow Forged Alloy Wheels for India's Aftermarket for passenger cars, Delhi-based Advantec Wheels today disclosed the immense potential of this market and its strategy to capture a larger pie of the market. The company will be rolling out its product range in the third quarter of the current fiscal from its state-of-the-art factory in Jammu. This was shared by Mr Jasneet Singh, Founder-Director, Advantec Wheels today.

Pune (Voice news

service):- Piaggio Ve-

hicles Pvt Ltd, the 100%

Detailing the current market scenario for the Aftermarket, Mr Jasneet Singh remarked, "The Aftermarket is plagued with many challenges -- be it on quality, authenticty, performance, logistical pipelines, forex movement etc. The alloy wheels market in India is estimated to be approx. 7 Lac wheels p.a. dominated largely by Chinese and South-East Asian suppliers. As a growing market, over 50% of the market demand is catered by imported wheels with lack of certification to BIS and quality and finish of products are highly suspect, leaving customers with no choice or alternative! In the year 2021 alone, it is estimated that approx. 310,000

4-wheeler after-market alloy wheels have been imported in India, registering an yearly growth of approx. 12.5%.!. Incidentally, the last three years has witnessed a huge influx of imports of alloy wheels into the country. Hence we see a latent need to tap this cate-Detailing the overall market-

ing strategy, Mr Singh stated,

"We are entering the market with our own alloy wheels that are fully engineered, perfected and validated inhouse using state-of- the-art manufacturing processes, quality and performance matching the levels of international suppliers. Lately, we have seen a huge surge in the passenger cars segment with increased use of alloy wheels. Customers are demanding value-added products with high quality finishes that lend more durability to the car's performance. We are poised to play the Numero Uno position in serving these cars with our robust alloy wheels. We are equipped with Wheel Rim domain knowledge of more than 50 years. With our new range, we are hopeful of captuting approx. 25% share for the domestic market with focus on the niche segment of high quality and value-added wheels?

He further added, "Our research indicates that Allov Wheels are the bedrock for a smooth, safe and effortless performance of the car. Our introduce Hi-Quality Wheels that would conform to world class standards on key parameters such as - aesthetics and performance, and an added customization option called Element Painted (E.P) allowing customers to choose from a wide variety of finishes per design! We intend to be a strong player in this segment in time to come. We will be the first company to have a fully-automated Foundry line

in the country. Detailing the product specifications, Mr Singh added, "We will have some key firsts to our credit. As the first company to have a fully-automated Foundry line in India, our Foundry Lines will be of international standards wherein casting of wheels are done in automated Tilt Gravity Die Casting machines to make consistent and better quality of wheels. Our first in class processes like "Flow Forging" will lend our products extra strength and edge in flawless quality. Another Industry's first process at our factory is the introduction of Element Painting (EP) which makes our products distinct, unique with customized finishes as per customer's requirements like never before. Our CoE (Center of Excellence) would conform to BIS / ISO Standards and have the capability to offer Mirror Cut Alloy Wheel Finishes. Importantly, one of the USP's is the inhouse Tool Design and Development that would deliver all kinds of designs and sizes for wheels with great speed to market. What's more! All these come with proven track record of industry's veterans and professionals. We expect to achieve a maximum sales volume of approx. of 200000 in upcoming years. We will have manpower of over 125 people at peak capacity of the plant."

Elaborating on the Sales and Marketing plans for the brand, Mr Singh said, "We have a well-entrenched marketing strategy in place. We propose to target the niche premium segment of the young automotive enthusiasts in India who are desiring value-added products. Our Social Media campaign is in place which has evoked a lot of response and enthusiasm. We will be participating in major automotive exhibitions and events throughout the country and abroad. Our sales and distribution strategy includes establishing contacts with major dealer networks in the initial targeted metro cities as well as direct sales through our e-commerce website (www.advantecwheels.com).

We shall be adhering to a well-thought-out pricing strategy which will bring premium, luxury performance wheels of international technology and standards at af-

Yamaha Launches 2023 Aerox 155 with **First-in-Class Traction Control System** ant fuel-injected engine with

Pune (Voice news service):- Revving up the excitement for 2023 with its premium two-wheeler offerings, India Yamaha Motor (IYM) Pvt. Ltd. under its Call of the Blue brand campaign today announced the launch of AEROX 155 with Traction Control System (TCS). The maxi-sports scooter is the first in its segment in India to feature TCS. In addition, IYM also announced the launch of 2023 variants of its premium range of two-wheelers including the MT-15 V2, R15 V4 & R15S with class-leading features and brandnew colour schemes. The 2023 version of Yamaha

AEROX 155 equipped with Traction Control System (TCS) will help to further maximise performance by minimising wheelspin and better control in any riding condition. Along with it, the latest version of AEROX 155 is E20 fuel compliant and also equipped with on-board diagnostics (OBD-II) System. It is powered by a new generation 155cc Blue Core engine equipped with Variable Valve Actuation (VVA). Mated to a CVT transmission, the liquid-cooled, 4-stroke, SOHC, 4-valve motor produces a max power output of 15 PS at 8,000rpm with 13.9 Nm of peak torque produced at 6,500rpm. Additionally, the Aerox 155 now gets hazard system as a standard feature and a brand-new silver colour.

In order to provide the MT-15 V2 customers with more choices, IYM has introduced the new 2023 variant in two exciting colors - Dark Matte Blue & Metallic Black color. With the launch of this variant, customers will have a choice to select from Bluetooth (Y-Connect) equipped variant and non-equipped (Y-Connect) variant. This variant will retain the features like Dual Channel ABS for added safety, TCS ensuring maximum performance and OBD2 for quick access to the machine's vital data.

For 2023 both the R15 V4 & the R15S variants now come with some of the highly desired upgrades. The R15 V4 now will feature Ouick Shifter in the new Intensity White color along with the existing Racing Blue color. The R15S on the other hand gets the same 155CC engine as the R15 V4 and racing inspired LCD

The R15 V4, R15S and the MT-15 V2 are powered by Yamaha's performance-oriented liquid-cooled, 4-stroke, SOHC, 4-valve, 155cc, OBD2 compliVariable Valve Actuation (VVA) system mated to a slick shifting 6-speed gearbox with an Assist and Slipper clutch for lighter and more precise gear actuation producing 18.4PS of peak power at 10,000rpm, with peak torque output of 14.2Nm at 7,500rpm. Speaking on the occasion, Mr. Eishin Chihana, Chairman, Yamaha Motor India Group of Companies, said, "Since its launch, the Yamaha AEROX 155 has been the ultimate game

changer in the Indian scooter market. It impressed every two-wheeler enthusiast in India with its style, class-leading performance, and unparalleled fea-The new 2023 AEROX 155 takes

this to the next level with new and exciting features that will surely adorn your every ride with more thrills. With the new AEROX 155 and upgrades in our premium motorcycle variants including the MT-15 V2, R15 V4 & R15S, we are confident that our customers would appreciate the Yamaha's constant endeavour towards bringing the latest and greatest in two-wheeler features and technology for the Indian market".

'Cummins Powers Women' Supports Global Non-profit Rise Up's Program to Strengthen Gender Equity in India

Pune (Voice news service):-Cummins Powers Women, a landmark community initiative to advance Cummins Inc.'s long-term commitment to the empowerment of women and girls around the world, partnered with global non-profit Rise Up as it launched its third Leadership Accelerator Program to improve the lives of women, girls, and gender-nonconforming people in India. Rise Up works to advance gender equity and justice in education, health, and economic

opportunity. The program was supported by Ashwath Ram, Managing Director, Cummins Group in India; Shveta Arya, Executive Director - Power Systems Business, Cummins India, and Sponsor Cummins Powers Women; Ashish Aggarwal, Chief Administrative Officer, Cummins India, and Catherine Van Way, Head - Government Relations, Cummins Inc. Underlining the need for swift actions to promote gender equity, Shveta Arya, Executive Director - Power Systems Business, Cummins India and Sponsor, Cummins Powers Women said, "Empowering women is key to unlocking India's progress and prosperity. Yet, we are decades away from achieving gender equity. At Cummins Powers Women (CPW), we are focused on supporting initiatives that tackle gender disparities head-on to transform the lives of women and girls. We congratulate the new graduates of Rise Up Leadership Accelerator Program and look forward to working with Rise Up and Rise Up Leaders as they create equal opportunities for women and accelerate progress toward gender equity. At Cummins, we recognize that a more inclusive and diverse world is a better world for everyone." Vidhu Prabha, Rise Up Country Lead for India said. "Given the social, cultural, religious, and geographic diversity in India, there is tremendous value in Rise Up's commitment to support local non-profit leaders who are best suited to identify the most urgent issues and solutions to achieve systemic change. Our multi-year partnership with Cummins makes this transformational change possible as we work toward greater equity in India and the world." This year marks the fifth anniversary of the Cummins Powers Women program that has been driving change and empowering women and girls around the world.
